New employment program is proposed

At its July meeting, the State Boad of Social Services approved for public comment a draft policy governing employment services for public assistance recipients.

The public comment period will run through August 26. Two public hearings will be held to receive comments. The first hearing will be conducted in Richmond on Thursday, August 5, at 10:00 a.m., in Room D of the General Assembly Building. The second hearing will be held in Roanoke on Thursday, August 12, at 10:00 a.m. in the Conference Room of the State Department of Social Services Roanoke Regional Office, located downtown in the FNEB Building.

Comments will also be accepted by phone on a toll-free number: 1-800-552-7095. Written comments may be sent to the Employment Services Unit, Division of Benefit Programs, Virginia Department of Social Services, 8007 Discovery Drive, Richmond, Virginia 23288.

Copies of the complete proposed employment services policy may be requested by calling the toll-free number or by writing the Employment Services Unit at the above address.

The proposed policy approved for comment by the State Social Services Board would require all local welfare agencies to offer a program of employment opportunities designed to assist public assistance applicants and recipients toward the goal of self-support.

Each employment program must emphasize the placement of welfare applicants and recipients into unsubsidized, private sector jobs. In areas where private sector job opportunities are lacking, programs may be designed to include employment or training opportunities in public sector.

Each local employment program must include a work experience component for those who need developmental experience to assist their entrance into unsubsidized employment, particularly those who may never have worked outside the home or whose skills and abilities have become outdated.

A job-search component will also be included in each employment plan. Welfare recipients will be assisted for up to eight weeks in locating job openings, making phone calls about jobs, completing applications, and other skills necessary for obtaining employment.

All able-bodied public assistance applicants and recipients will be required to register for and participate in the employment program offered by their local department of social services unless they meet specific exemption criteria for the category of assistance they are receiving.

Based on federal and state law, the failure of a public assistance client to accept employment services from the local welfare agency will result in the employable client's needs being removed from consideration in granting Aid to Dependent Children or General Relief to his or her household. ADC or GR payemnts would continue for others in the household.

However, if the household receives food stamps, the failure of one employable individual to participate in employment opportunity programs could result in loss of food stamps to the entire household.

"Virginia has long been committed to the goal of self-support for those who depend on public assistance," said Social Services Commissioner William L. Lukhard. "This newly outlined policy opens doors into self-support and an improved quality of life for many Virginians. Our local departments are already working on innovative plans to help put people to work in jobs where they will regain or learn the pride of supporting themselves and their families."

It May Be Cheaper To Build Than To Buy

Lowe's Complete Material Packages (NOT Pre-Fabs) Can Save You Money

As a major supplier to homebuilders throughout the East, Lowe's carries virtually all the materials needed to build a home—from lumber and lighting to windows and wallpaper. And we've incorporated all these quality products into a group of beautiful home "packages" that, for many years, have been well-received by both professional homebuilders and consumers alike. Below are three variations of one of our newest designs.

Here's How

Our Convenient Package System Takes The Hassle Out Of Home Building!

1 Under our program, you furnish the land, labor and foundation. *We supply everything else.* The lumber. Roofing. Siding. Doors & Windows. Plumbing. Wiring. Light Fixtures. Carpeting. Paint. All for one low price. And you can choose paint colors, wallpaper patterns and other interior finishings.

2 Our price is *guaranteed for 90 days.* And in today's fluctuating commodities market, that feature alone could save you money. 90 days is usually plenty of time for most homes to be constructed. So once you've picked out your paint, flooring, light fixtures, etc., the price is "locked in."

3 During actual construction, we deliver materials to the site *as they are needed*—not all at once or in unrelated shipments. This will save construction (and labor) time, and reduces the chance of weather damage & pilferage. Everything is coordinated as much as possible, so worries are as small as possible.

4 Our homes are *Energy Efficient.* They have fiberglass insulation in the floors, walls and ceilings. Plus features like insulated doors & windows and an attic ventilation system. (Even more efficient home designs are also available.) Your new home will continue to save money long after it's been built.

5 We have a *trained specialist* to guide you through the entire homebuilding process. He'll help you choose the right floor plan for your needs. He'll suggest lenders & reputable builders, and oversee the materials portion of your home's construction from start to finish. In other words, he'll be on your side.
